The screenshot displays the SonarQube web interface for project 'unitime5'. The browser address bar shows 'localhost:9000/project/issues?id=unitime5&resolved=false'. The SonarQube navigation bar includes links for Projects, Issues, Rules, Quality Profiles, Quality Gates, and Administration. The main header shows the project name 'unitime5' with a dropdown for 'main' and a status indicator. A warning banner states 'The last analysis has warnings. See details'. Below the header, the 'Issues' tab is selected, showing a list of 1 / 51,731 issues with a total effort of 1324d. The left sidebar contains filters for 'My Issues' and 'All', and a list of issues categorized by Type (Bug, Vulnerability, Code Smell) and Severity (Blocker, Critical, Major, Minor, Info). The main content area lists several code quality issues, each with a description, severity, effort, and a link to the issue details. The issues are: 'Replace this use of System.out or System.err by a logger.' (Major, 5min effort), 'Provide the parametrized type for this generic.' (Major, 5min effort), 'Replace this use of System.out or System.err by a logger.' (Major, 10min effort), 'Replace this use of System.out or System.err by a logger.' (Major, 10min effort), 'Add a private constructor to hide the implicit public one.' (Major, 5min effort), 'Replace the synchronized class "StringBuffer" by an unsynchronized one such as "StringBuilder".' (Major, 20min effort), 'Replace the synchronized class "StringBuffer" by an unsynchronized one such as "StringBuilder".' (Major, 20min effort), and 'Replace the synchronized class "StringBuffer" by an unsynchronized one such as "StringBuilder".' (Major, 20min effort). The bottom of the screen shows a Windows taskbar with various application icons and the system clock indicating 6:01 PM on 5/5/2023.
